Throughout this revised instrument, there have been changes/additions to dialogue that should guide you through the interview. Dialogue will be **bolded** and all other language should not be read aloud.

#### **READ ALOUD TO RESPONDENT:**

Hello, my name is\_\_\_\_\_\_, and I work for the \_\_\_\_\_\_study. Thank you for agreeing to talk with me today. This interview usually takes <u>about 2 hours</u> to complete. I'm going to read you a set of questions exactly as they are worded so that each person is asked the same thing. I will need to keep things moving along, so I hope that I don't sound rude if I tell you we need to move on to the next question.

I will be asking primarily about your <u>personal and family background</u>, your <u>friends</u>, your <u>criminal and legal involvement</u>, your <u>sexual behaviors</u>, and your <u>drug use history</u>. All of your answers will be kept confidential and will in no way affect your legal status, or any services or money you may receive. Many of my questions will refer to the "<u>last 6 months</u>" or the "<u>last 30 days</u>" – that is the time prior to the arrest that resulted in this incarceration. I'll try to be clear, but please ask me if you are not sure about the time period involved.

It is very important that you be <u>open and honest</u>. Some questions may be sensitive or difficult to talk about, but they are necessary to help us evaluate the services provided as part of this study. Do you have <u>any questions</u> before we start?

#### **INCARCERATION TIME LINE**

What date	were you	arrested that
resulted in	this incar	rceration?

	-	-	
MONTH	DAY	YEAR	

Okay, so 30 days before that date would be...

	-	-	_
MONTH	DAY	YEAR	

(Enter the date that <u>precedes</u> the arrest date on the timeline by 30 days.)

And 6 months before that date would be...

	-	-	
MONTH	DAV	VEAR	

(Enter the date that <u>precedes</u> the arrest date on the timeline by six months (180 days).

It is important that you think about the 6 months and the 30 days before you were arrested. I will keep referring back to these time frames throughout our interview. How many of those 30 days were you free? Like not in jail or in prison?

(Enter the number of days that the client was free during the 30 days prior to the arrest date on the timeline.)

How many of the days in the 6 months we talked about were you free? Like not in jail or in prison? (use 180 days as guide)

Enter the number of days that the client was free during the <u>six months</u> prior to the arrest date on the timeline.

<u>GENERAL INSTRUCTIONS TO INTERVIEWER</u>: Some items in this form require that answers be recorded "verbatim" and then coded into specific units of measurement – such as "*months*" or "*amounts of alcohol*." Also, write out clarifying comments or other explanations of answers as needed in the margins next to questions, and identify any items that the respondent <u>cannot or refuses</u> to answer.

### RISKY RELATIONSHIPS THOUGHTS, ATTITUDES, AND BELIEFS

**INSTRUCTIONS:** Next, I would like to get some information about your attitudes and behaviors in relationships. Some of the questions will be about your relationships in the 6 months before you were incarcerated and some will be about your relationship after you are released. Even if you don't think that you will have a relationship in the 6 months after you are released from prison, please make a guess about what you would do if you were in a relationship. To provide your responses, use the following scale where 1=never and 10=everyday:

ITEMS		SCALE									
1a. In the 6 months prior to incarceration, how often did you think that having unprotected sex would strengthen your relationship?	1	2	3	4	5	6	7	8	9	10	
1b. In the 6 months prior to incarceration, how often did you have unprotected sex to strengthen your relationship?	1	2	3	4	5	6	7	8	9	10

#### **AIDS DISCUSSION STRATEGY SCALE**

INSTRUCTIONS: Suppose you wanted to talk to a potential or current sexual partner about AIDS. The following statements concern the types of things you might do if you wanted to discuss the topic of AIDS (Acquired Immune Deficiency Syndrome) with a sexual partner (either a current sexual partner or a future sexual partner). More specifically, we are interested in whether you would use each of the behaviors listed below. To provide your responses, use the following scale:

[CARD #15]

- 1. Definitely would not do this.
- 2. Might not do this
- 3. Not sure whether I would do this.

#### SOCIAL SUPPORT QUESTIONNAIRE

(Note: Item #1 from original Sarason et al. (1983) item scale. Items #2-7 are from the Sarason et al. (1987) SSQ6).

Now I am going to ask about people in your environment who provide you with help and support. Each question has two parts. For the first part, list all the people you know, excluding yourself, whom you can count on for help or support in the manner described. For instance, we do not want names of people, but rather their relationship to you – such as mother, brother, friend, etc. For the second part, tell me how satisfied you are with the overall support you have.

If you have no support for a question, check the words "No one," but still rate your level of satisfaction.

Please use [CARD #18]

#### **VIOLENCE**

The following questions deal with conflicts that you may have encountered with a prior sexual partner. No matter how well individuals get along, there are times when they disagree, get annoyed with the other person, want different things from each other, or just have spats or fights because they are in a bad mood, are tired, or for some other reason. Individuals also have many different ways of trying to settle their differences. This is a list of things that might have happened when you had differences. [CARD #20] Read the card and indicate what each number response means.

0=Did not happen

- **1**=Once in the past 6 months
- 2=Twice in the past 6 months
- 3=3-5 times in the past 6 months
- 4=6-10 times in the past 6 months
- **5**=11-20 times in the past 6 months
- 6=More than 20 times in the past 6 months
- 7=Not in the past 6 months, but it did happen before

Please choose how often a <u>SEXUAL PARTNER</u> has done the following things to <u>YOU</u> in the 6 months prior to your arrest. If you did not have a sexual partner during this time, please answer these for your last sexual partner. Also, before you answer "0", please think if the event has ever happened in your life. Then the response would be "7."
